## Technical SKILLS

- HTML
- CSS
- JavaScript
- React.Js
- Tailwind CSS
- Redux
- Router
- Frontend Development

## PROJECTS

### Book Storel ⧉ | React.Js, Tailwind CSS, Firebase — 2024

- Revitalized device-agnostic functionality with cutting-edge responsive design techniques, leading to a 100% compliance with mobile-first design principles.
- Added a comprehensive book ordering feature that streamlined the purchasing process, reducing simulated user checkout steps from 5 to 3.
- Developed a customizable book listing feature, enabling sorting by genre, author, and rating with an efficiency improvement of 30% in data retrieval.

### E-commerce ⧉ | React.Js, Tailwind CSS — 2024

- Orchestrated a seamless user experience on all devices, achieving a performance score improvement from 70 to 95 in Lighthouse audits.
- Designed and coordinated an interactive cart for single-click additions and real-time updates, which improved the overall functionality and code maintainability by 50%.
- Pioneered a sophisticated item sorting feature, enhancing product categorization efficiency and reducing load time for sorting operations by 40%.

### Expense Traker ⧉ | React.Js, Tailwind CSS — 2024

- Developed a real-time balance calculator, reducing the calculation time for financial summaries by 60%.
- Implemented a detailed transaction history feature, ensuring 100% accuracy and reducing data errors.
- Created sections for tracking expenses and income, enhancing clarity and reducing prep time by 50%.
- Integrated a feature allowing users to delete individual transactions, enhancing control over financial records and reducing unnecessary data by 25%.

### Portfolio ⧉ | React.Js, Tailwind CSS — 2024

- Curated a portfolio with 3 major frontend projects, showcasing various design techniques.
- Designed user interface ensuring 100% responsiveness and cross-browser compatibility.
- Achieved an average performance score of 95 across all projects, demonstrating responsive design proficiency.
- Highlighted versatility with projects in e-commerce, finance, and personal branding.

### Weather App ⧉ | HTML, CSS, JavaScript — 2024

- Integrated real-time weather API for accurate forecasts, reducing data fetching and rendering time by 70%.
- Fetched and displayed weather data dynamically with JavaScript, achieving 100% uptime and instant updates.

## EDUCATION

### Makhanlal Chaturvedi University, Bhopal — 2022 – 2025

*Bachelor of Computer Application - (BCA)*
